United States Department of State

Washington, D.C. 20520

25 SEP 1981

Dear Mr. Schenfeld:

I am replying to your most recent letter to President Reagan concerning the Israeli air attack into Iraq and the situation in Poland.

As you know, on June 7, Israeli Air Force units attacked the nuclear reactor under construction in Tuwaitha, Iraq. On June 8, we condemned the Israeli air strike, noting that the unprecedented character of this action would seriously add to the already tense situation in the area and complicate our efforts to peacefully resolve problems there. The United States was not consulted in any way about any phase of the operation and was not informed of it in advance.

On June 10, the President suspended the scheduled delivery of four F-16 aircraft to Israel pending further study of the Israeli action and consultations with Congress. That same day, pursuant to Section 3 of the Arms Export Control Act, Secretary Haig sent letters to the Chairmen of the Senate Foreign Relations and House Foreign Affairs Committees indicating that a substantial violation of the 1952 U.S.-Israel Mutual Defense Assistance Agreement may have occurred. After the required report to Congress, the Act leaves any further determination or action to the President's discretion. Congress may also take further action.

On June 19, the United States voted for U.N. Security Council Resolution 487 condemning the Israeli attack, making clear our profound concern about the raid's impact on the peace and security of all the nations of the Middle East.

The July escalation of the cycle of violence on both sides of the Israel-Lebanon border, which included Israeli air attacks on Beirut and Palestinian rocket attacks on northern Israeli towns, was of great concern to us. Because of this general atmosphere of increased violence and tension

Mr. Jerry Schenfeld,
2570 East 26th Street,
Brooklyn, New York.

in the region, the President continued the suspension of scheduled military aircraft deliveries to Israel, eventually including ten additional F-16's and two F-15's. We voted for U.N. Security Council Resolution 490, which called for an immediate end to all armed attacks, and we worked hard to end the cross-border violence.

The Administration conducted an intensive review of these events, including candid discussions with Israeli Prime Minister Begin and consultations with Congress. We are satisfied that the Government of Israel clearly understands the provisions of U.S. law that govern the use of U.S.-supplied military equipment. The review took into account events and trends in the Middle East, particularly the events in Lebanon leading to a cease-fire on July 24. This cease-fire is a positive element in the region, one which we hope will continue and lead to other steps toward peace. In view of the changed atmosphere in the region, and after the review's completion, President Reagan lifted the suspension of military aircraft deliveries to Israel.

In the case of the air attack on the Iraqi nuclear facility, we have carefully noted the Israeli and Iraqi positions. Israel contends that its action against Iraq was a necessary, legitimate act of self-defense because the Iraqi reactor was intended to produce weapons grade material to make atomic bombs. Israel also points out that there is a state of war between the two countries and contends that Iraq had made clear its intention to produce such a weapon for use against Israel.

Iraq, on the other hand, denies that its nuclear program has any application other than the peaceful uses of nuclear energy. Iraq points out that it has ratified the Non-Proliferation Treaty and that its reactor and supply of enriched uranium were subject to International Atomic Energy Agency safeguard controls.

The United States does not believe that force can provide the answer to international disputes. Our condemnation of Israel's action was intended to clearly express this view. At the same time, as Ambassador Kirkpatrick made clear before the U.N. Security Council, we remain fully committed to the security and well-being of Israel and to the friendship between our two countries. The United States will continue to do all in its power to achieve a just and lasting peace for all the peoples of the Middle East.

As concerns the situation in Poland, as friends of the Polish people, we wish them success in resolving their internal problems. The United States has helped by providing food assistance and by joining Poland's other Western creditors in rescheduling its hard-currency debt. We seek

to avoid any words or actions that might complicate these efforts and urge others to do likewise.

We recognize no justification for outside military intervention in Poland, and the Soviet Union is well aware of our position. We remain committed to the NATO Alliance's December 1980 communique, which notes that "any intervention would fundamentally alter the entire international situation" and that "the Allies would be compelled to react in the manner which the gravity of this development would require."

As Secretary Haig recently stated, "Our basic objective is to do all we can to permit the situation to evolve ... based on the wishes and the desires of the people of Poland."

Sincerely,

/s/

Francis Terry McNamara
Acting Assistant Secretary
for Public Affairs

Dear Ron:

I am reluctant to write this letter being that you have not answered any of my previous communications. However the situation in Israel i.e. the attack on the Iraqi reactor demands that I say something. Israel was totally justified in putting to dust the Iraqi's nuclear instrument. Indeed Iraq would have being ready to use its atomic weaponary on Israel if indeed it was faced with that decision.

Israel was driven to destroy the Iraqi's reactor out of the fear that its defense was in jeopardy when Iraq would have possessed the atomic bomb. Currently another country seeking that same capability is Pakistan. If and when it develops the bomb there is an implied threat that Col. Qhadafi will acquire it. When he does you can count on a nuclear conflict in the middle east. Pakistan must be prevented from acquiring any nuclear weapons. You have the power to force them to abandon their quest for that weapon.

Israeli action demonstrates poignatly how atomic proliferation can't be stopped. France still has to ship to Iraq 154 more pounds of enriched uranium (93% 235) enough to make 10 bombs. This situation must be carefully monitored. If Libya is able to buy atomic bombs then the situation is clearly out of hand. Pakistan must be stopped from manufacturing any atomic weapons. The situation in the world arena concerning the proliferation of nuclear weaponary in third world countries is very dangerous.

The action by Israel, executed so magnificently, illustrates the

No previous file

still flying in my area. Yesterday they made their appearance known as the Air-force planes can well testify. Are your pilots blind or are they not aware of the ships purpose ?.

When I met the people on these ships I ventured to know my plan. That is that these extra-terrestrial ships be allowed by all countries on earth to liquidate all nuclear weapons in existence. Apparently they agreed with me and for that reason have been making an appearance nightly. For that and for no other reason. All disarmament efforts in history have failed to stop the proliferation of nuclear weaponry. The only thing that can save the world from WWIII is for these ships to be given the signal to start incinerating all nuclear instruments in the possession of USA, USSR, France, England, China, Israel, India. I suppose that covers all the countries

I don't see how reductions in nuclear weapons can solve the problem of a nuclear conflict. The only assured way is for no country on earth to possess these weapons of mass destruction. This is exactly what Israel was trying to accomplish. By preventing any other Arab country from having atomic instruments of destruction it would assure itself no threat. This was the goal. It is an admirable one. However as long as USSR supports Syria one can't discount on nuclear weapons being introduced into the Middle East. That's why the situation there is very volatile currently.

Another problem is Poland. The USSR must be made to pay for its occupation of Poland. By being surrounded by us and China we can make it pay. By threatening it, we can make it pay. We must make it unbearable for the Russians. Surround it with enemies then it shall pay more closer attention to the actions.

Ostensibly I realize that the US govt and USSR govt

wiped out by the divine ships However the other way is for their liquidation in a global nuclear holocaust. Why would these extra terrestrial ships be not flying if they didn't commit themselves 100% to my plan?

I have solved the origin and meaning of the UFO problem. Obviously they are the ancient gods who helped man create his civilization here on earth. Surely now when we are faced with our greatest crisis they shall not leave us to rot. As I have stated in all my past letters they are the gods who have been visiting peoples all over the globe since antiquity. They were outfitted with multiple antennae on their helmets when I had observed them. They used a language I couldn't understand. They keep coming back every night to let me know that my plan is the only one with a chance to avert WW III.

If the nations on earth don't agree for these ships to vaporize and liquidate their nuclear weapons of mass holocaust then WW III is all but unavoidable. I am sure that if WW III was to break out they would all be too glad to leave us to our miserable fate. They would just fly high up in the sky and watch us incinerate ourself as they are doing now.

For if we can not disarm ourself by discriminate coherence or otherwise then we surely deserve our fate They can't help us. But if we choose to disarm totally then they shall be more than glad to help. I see the scenario of WW III breaking out and these extra-terrestrial ships just flying way up in the sky and letting us incinerate ourself to our fate.

They will not do a thing for us if we don't agree to let them destroy all nuclear stockpiles on earth. If WW III should break out they will only be too glad to leave us to our horrible fate which they would think we richly deserve.

The case of Israel destroying Iraq's atomic reactor only points to the hopeless task of nuclear proliferation. If indeed all nuclear weapons were used we would then liquidate the active stock. The extra-terrestrial ships are all but laughing at us for not being able to control our weapons of mass destruction.
They shall do this until WW III breaks out. And then they shall watch us all being incinnerated.

Truly yours,
Jarg Schonfeld

PS
The countries of the world must come to an agreement to let the extra-terrestrial ships vaporize, destroy, disarm all nuclear weapons instruments of mass holocaust on earth. If they don't and if they don't reduce their stockpiles by 100% WW III will break out. And that's why they're here.
They are the ancient gods, the architects of our civilizations and they are here to see us destroy ourself and their civilization that they fostered with. That is their will for us to be destroyed in a nuclear holocaust.
